PLATFORM & RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled, do hereby declare their loyalty to the principles of the Republican party which have made the country so great and prosperous during the last quarter of a century.

Resolved: That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved: That a diminishing quantity of money reduces the price of labor and property, increases the operation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved: That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the national banks without regard to the increase of population or the wants of the people, and which gives gold as the standard of value, and places it in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to nations banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

Resolved: That a sound policy whereby gold and silver shall form the basis of circulation, whether the money used by the people to coin, or in certificates redeemable in gold or both, as convenience may require, is imperatively demanded.

Resolved: That the amount to substitute National Bank Notes, owing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people that the treasury ring of trust, which has usurped the several powers of the Government to issue money, and which has fraudulently demoralized silver and sold the revenues of the Government for private speculation, should be moralized, and the debts of the people and debts of the country for the time being repudiated.

Resolved: That we charge that President Cleveland and his cabinet are agents of a powerful money power which nations the members of the Government, makes war on silver, issues paper currency at the expense of the Government, because the economy ruled by taxation on the poor without the payment of interest, subjects the currency to inflation, the want of bonds, and enriches the wealthy which depresses the price of labor and property.

Resolved: That we favor the nomination of no man for President who is personally interested in national banks or the bigoted monopolies of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

Resolved: That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the bond purchasing bill, equates the evil of the secret and fraudulent demonization of silver in 1873.

Resolved: That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country and to that end will protest in wage-war competition with the cheap labor of other nations.

Resolved: That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either agent or head, is most active in defending.

Resolved: That we charge President Cleveland and his cabinet every possible measure to make in

EAGLE MARKET.

Beef, Lamb, Mutton, Veal, Sausage, Etc.

My facilities for purchasing good beef are second to none in the State, and customers can always be assured of the best in the market.

This market was the first in the city to introduce the cold storage process, by which meats can be kept for weeks in the hottest weather. Our cold storage room is the largest and most perfect in the State.

small services, with refusing to sign the necessary bill or the improvement of rivers and harbors, which limits the power of his administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protection tariff, with causing the goodwill of other nations at the expense of the citizens of the United States, and with Johnson that right hand orderly demands silver and destroys the industry of our country, and for the reduction of wages at the plant employees of Carson, for closing the Carson Mint, when it was mostly self-sufficient, but a source of revenue to the Government, for its contemptuous void of pension bills for the rank of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.
